TRUEXPANSE · MASSIVE ACTION METHOD

THE MILLION-DOLLAR MATH WORKSHEET

Most owners chase revenue. Winners chase the **daily activity** that produces it. Work top to bottom — by the last line you'll know the exact number to hit every single day. Then track it in the MAT and let the revenue take care of itself.

1	**My revenue goal — next 12 months**	
2	**My average job / sale size**	
3	**Jobs I need to close** Line 1 ÷ Line 2	
4	**My close rate** jobs won ÷ proposals sent — be honest	
5	**Proposals I need to send** Line 3 ÷ Line 4	
6	**My working days this year** most owners use ~250	
7	**Proposals per working day** Line 5 ÷ Line 6	
8	**Estimates / appointments per day to create them**	
9	**Conversations / dials per day to book those**	

Lines 7–9 are your daily number. That's the whole game.

You can't control revenue. You can control the daily number. Hit it every day — measured, not guessed — and the goal becomes math, not luck. That's what the Massive Action Tracker is built to do.
